As has been mentioned above, it is very possible for a computer to get infected via a malicious PDF. In addition to using anti-spam and anti-virus software, it's wise to use the latest version of Adobe Reader (or an alternative PDF reader of your choice), and to always keep it updated. As malicious PDFs are also commonly distributed via drive-by downloads and web-based social engineering attacks, using a good web filtering and scanning solution at the endpoint and/or gateway is also important.
