Metacognition strategies are techniques that help people become more successful learners. Shouldn't this be a crucial goal of instructional design?

## **Metacognition And Learning: Strategies For Instructional**

Success in second language learning is often related to the concept of "motivation". Motivation is the most used concept for explaining the failure or success of a language learner. Second language (L2) refers to a language an individual learns that is not his/her mother tongue, but is of use in the area of the individual.
